Experience

April 2020

Creativity & Mental Health Awareness 42nd Street, Manchester

A commission from mental health charity 42nd Street to create something that emphasises the link between creativity and mental wellbeing.

January 2020 - Present

Freelance Web Design Various Employers

Since displaying a video of my own website on Instagram, a few people have reached out asking me to design and build a website for them. I enjoy doing this as it involves the problem solving of coding along with the creativity of designing a beautiful, functional website.

June - September 2019

Sailing Instructor Wildwind, Vassiliki, Greece

This job involved instructing beginner to advanced sailing lessons, running kids club and playing saxophone in the staff band every week.

Skills & Hobbies

Electronics 

Slacklining 

Autodesk Fusion 360 

Cooking 

Adobe Illustrator 

Jazz Saxophone 

Adobe Premiere Pro 

Watersports 

Web Design
(HTML, PHP, JS) 

Building 

Artist Statement

With the aid of electronic components and digital manufacturing techniques, Duggie Dundas is a designer and new media artist who creates machines and devices. As well as using design to find answers, Duggie invites his audience to ask questions, encouraging them to be curious. His aim is that they will rediscover the joy of playing and exploring - asking 'How does this work?' or 'What is that made of?'

Why does he do this you ask? Well, that's just encouraging him.
